

## REACH Update: ECHA Proposed to Identify 20 New SVHCs

中文版

On 29 August 2011, the European Chemicals Agency (ECHA) published proposals to identify 20 chemicals as Substances of Very High Concern (SVHC) and possible candidates for authorisation. Public consultation is undertaken until 13 October 2011. There are already 53 substances on the Candidate List. Inclusion on the list imposes new information requirements on suppliers of preparations and articles containing the substances.
