## Green Hong Kong • Carbon Audit of Buildings

Carbon Audit 碳審計

### Do you know what "Carbon Audit" is?

According to the "Guidelines to Account for and Report on Greenhouse Gas Emissions and Removals for Buildings of Commercial, Residential or Institutional Purposes in Hong Kong" published by Environmental Protection Department, **"Carbon Audit" is conducted within the building's boundary to evaluate the greenhouse gas (GHG) emission and develop a more environmental friendly policy.**

### What are the advantages of performing Carbon Audit?

- ✓ To review the use of energy, e.g. elevator, air-conditioner and lighting, etc
- ✓ To improve energy efficiency and conservation
- ✓ To allow building owners to go green and save money in the long term

### What kinds of buildings are applicable for Carbon Audit?

- ✓ Commercial buildings such as offices, retails, restaurants and hotels
- ✓ Residential buildings
- ✓ Buildings used for institutional purposes such as schools, universities, community centers, sports complexes

### Our Service Scopes of "Carbon Audit"

- To set-up operational and physical boundaries
- To quantify the GHG emission
- To provide Carbon Audit reports
- To tailor-made "Carbon Offset" Scheme
